

Compliant Cloud Platform

Compliant Cloud Platform by Orise is a fully qualified Infrastructure-as-a-Service (IaaS) solution tailored for the needs of regulated life sciences organizations. Whether you're deploying GxP applications or building SaaS for pharma, Compliant Cloud Platform provides a ready-to-use, audit-ready cloud foundation.

Every layer of the platform is designed to meet the strictest global compliance standards, including FDA 21 CFR Part 11, EU Annex 11, and GAMP 5. Qualification status is evidence-backed, fully documented, and always available for inspection — giving teams the confidence to scale, change, and innovate without compliance friction.

Main benefits

Deploy with confidence on fully qualified, audit-ready infrastructure that meets global regulatory standards like FDA 21 CFR Part 11 and EU Annex 11.

Stay prepared for audits at any time with full visibility into infrastructure compliance and instant access to qualification records.

Reduce the cost and complexity of infrastructure qualification by starting on a platform that's already validated and maintained by compliance experts.

Scale your operations up or down as needed without ever stepping outside of your qualified compliance boundaries.

Ensure continuous compliance with integrated change control, pre-approved processes, and complete documentation of every update.

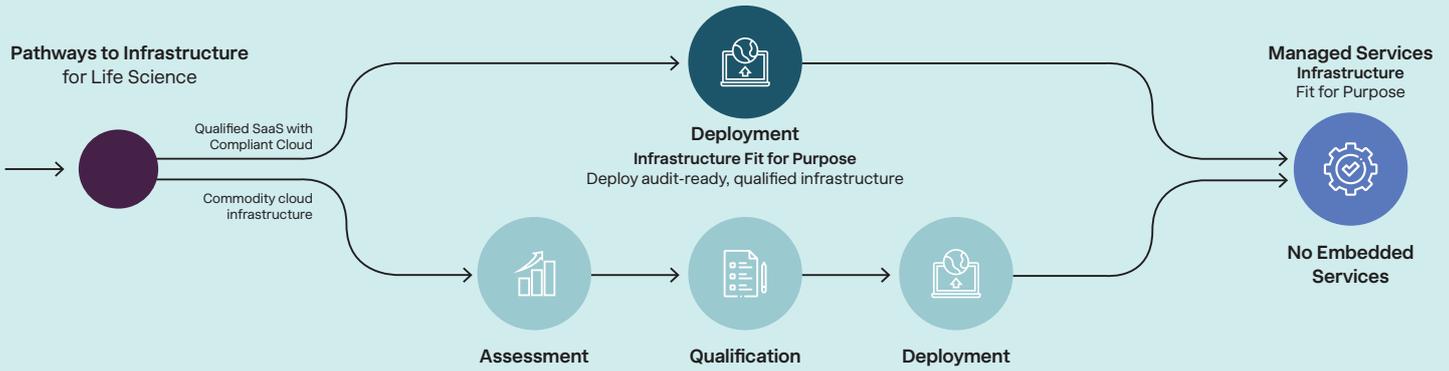

Redirect internal resources to core business priorities by outsourcing the compliance burden to a platform designed for regulated environments.

Compliant Cloud Platform is the fastest and most effective path to obtaining qualified infrastructure

Pathways to qualified infrastructure

A feature set that addresses real business challenges

	Speed up innovation	Audit readiness	Resilience and robustness	Sustainability	Scalability

Transparent & Predictable Cost Control <i>No ingress/egress fees</i>				✓	✓

Orise Digital is the digital innovation arm of Orise, built to connect and optimize the entire digital process and system landscape. With deep expertise in automation, system integration, and process optimization, we deliver industry-proven tools that enhance connectivity, streamline operations, and turn data into actionable insights. Orise Digital helps enterprises integrate technologies seamlessly, boost efficiency, and stay compliant. As the final link in the digital chain, we turn digitalization from vision into reality—empowering smarter, faster, and more informed decision-making through structured, visualized data.
